Re: Extension of Go-Live Date

As I informed you via e-mail on March 3, the California Department of Health Care Services (DHCS) decided to extend GCHP’s Go-Live date. There has been some confusion and misunderstandings around the issue – with the press and even with elected officials. This memorandum seeks to offer clarifying information to the Commission.

The written CEO update to the Commission on February 28 highlighted issues that were under state review that may impact the state’s decision. Excerpts from my written report of February 28 follow:

- On or about January 3, there was a telephonic conference with GCHP and DHCS staff. GCHP was tasked by DHCS to submit a business plan. There were ten components of that plan, Item 7 addressed, “Working Capital - Demonstrate that the working capital is adequate, including provisions for contingencies. In the event that the State has a Budget impasse and is unable to pay contractors for the initial 2-4 months of the 2011-12 State fiscal year, demonstrate the Plan’s ability to fulfill the obligations under the contract during this period of a potential budget impasse.”
- The GCHP business plan was submitted to DHCS on February 8. For item 7, we responded that insufficient cash flow would be managed by delaying payment to vendors and providers. We also included a letter from our bank confirming that State-issued warrants would be honored.
- On February 23, DHCS initiated a follow-up conference call to discuss GCHP’s business plan. DHCS informed us that delaying payments to providers was not permitted and that the bank’s commitment to honor warrants was not sufficient. DHCS advised that GCHP must have access to $48 million (approximately two months of revenue) – this could be satisfied via a line of credit with a commercial lender or a guaranty from the County. On February 24, DHCS sent a letter (included in this packet) via e-mail summarizing their concerns and establishing a response deadline of February 28.
- On February 24, GCHP requested DHCS (via e-mail) to provide specific section citation of the Patient Protection and Affordable Care Act (PPACA) relating to provider payment requirements and the statute or regulation for cash on hand / access to funds requirements.
- On February 25, GCHP initiated a call with State Controller John Chiang and staff to discuss the situation and possible alternatives. State Controller Office (SCO) staff stated that Medi-Cal payments to providers are a priority. Providers under the Medi-Cal program fall under three
general categories: institutional providers, non-institutional providers and vendors. In the absence of an extreme state fiscal crisis, non-institutional providers receive payment regardless of a state budget impasse; however, institutional providers would not necessarily receive timely payment from the state, rather these providers would be issued “registered warrants” or IOUs. SCO said they would need to determine and research as to what category a county organized health system such as GCHP would fall under i.e. institutional vs. non institutional provider.

I offer the following update and summary of recent events, some of this information was shared with you via e-mail on March 3:

• At 11AM on Thursday, March 3, GCHP management attended teleconference initiated by DHCS. Also attending was Michael Powers, in his role as incoming CEO for Ventura County. DHCS announced their decision to extend our Go-Live date, citing two concerns:

  1. Provider Network
     a. DHCS informed us that they expect GCHP to have contracts with all Long Term Care facilities in the County that currently have a Medi-Cal patient. This expectation was not made clear previously.
     b. A contract with the five “major” hospitals that serve the Medi-Cal population – we have executed contracts with four – the fifth is in negotiation.
     c. The absence of certain specialty services such as AIDS and Perinatology.

  2. Financial Model. DHCS felt that the GCHP three year financial model / business plan was “too aggressive” and that the plan’s reserves were not adequate.
     a. DHCS is re-evaluating its position that GCHP secure a $48 million credit line in the event of a State budget impasse. It is my understanding that the State Controller’s Office has had initial contact with GCHP.
     b. A $4 to 5 million “cash infusion” to GCHP in the form of a “gift or grant” was suggested as an alternative to satisfy DHCS tangible net equity (TNE) concerns. That was the first time this issue was raised.

GCHP argued that it had demonstrated credible progress in developing a provider network and a sound approach to achieving TNE requirements in a three year period; however, DHCS disagreed. It was agreed that GCHP would revise the three year financial model, explore / secure appropriate funding and continue to expand the provider network (in particular, the inpatient areas). The DHCS agreed to review regulations concerning timing of provider payments and the use of a subordinated loan facility to address TNE requirements.

• At 3:00PM, during our regular weekly teleconference DHCS staff reported receiving calls asking for information regarding GCHP status, Go-Live date, finances, etc. DHCS agreed to refer such calls to GCHP.
• At 4:02 PM, I received an e-mail from one of our Commissioners reporting he heard, “some disturbing news approximately one hour ago, through an assembly person’s office… [that the] state had denied GCHP application.”
• At about 4:30 PM, GCHP received a call from the Ventura County Star. In attendance were: Guillermo Gonzalez (Government Affairs Director), Steven Lalich (Communications Director) and myself. The reporter asked for confirmation that the State has approved the May 1 Go-Live date. I explained that was not true, that the date Go-Live date had been extended. Soon after that call a media alert was released.

• On Friday, March 3, the Ventura County Star published a story about the extended go-live date. The article noted, “The California Department of Health Care Services on Thursday pushed back the launch of Ventura County's revamped Medi-Cal plan from May 1 to July 1… The state cited two major concerns: finalization of Gold Coast's provider network; and the system's financial viability. Officials also said they want Gold Coast to have contracts with more long-term-care facilities, one more hospital and a few more specialty-care physicians.” The article did not name any specific facilities; none were provided to the reporter by GCHP.

Clearly, there was a flurry of communication – an indication of both excitement and anxiety. No doubt, misinformation may have been transmitted or perhaps correct information misinterpreted.

As I noted previously, management will use the “extra time” to update the financial model and continue to build a robust network that will enhance member access to care and provide even greater choice. We will also have more time to fine-tune various components of operations, including member services and bilingual education and outreach activities.

I hope this memorandum addresses any confusion that you may have experienced. Thank you for your continued support.
