Gold Coast Health Plan

HIPAA Transaction
Standard Companion Guide

Refers to the Implementation Guides
Based on ASC X12 version 005010

CORE v5010 Companion Guide

August 2018
Disclosure Statement

Gold Coast Health Plan is accepting X12N 270/271 Health Care Eligibility Request and Response, as mandated by the Health Insurance Portability and Accountability Act of 1996 (HIPAA).

Type 3 and Errata (also The X12N 270/271 version of the 5010 Standards for Electronic Data Interchange Technical Report referred to as Implementation Guides) for the Health Care Eligibility Request and Response Transaction has been established for eligibility status inquiry and response compliance. This document has been prepared to serve as a Gold Coast Health Plan’s specific companion guide to the 270/271 Transaction Sets. This document supplements but does not contradict any requirements in the 270/271 Technical Report, Type 3. The primary focus of the document is to clarify specific segments and data elements that should be submitted to Gold Coast Health Plan on the 270/271 Health Care Eligibility Status Request and Response Transaction. This document will be subject to revisions as new versions of the 270/271 Transaction Set Technical Reports are released. This document has been designed to aid both the technical and business areas.

Preface
This Companion Guide to the v5010 ASC X12N Implementation Guides and associated errata adopted under HIPAA clarifies and specifies the data content when exchanging electronically with Gold Coast Health Plan. Transmissions based on this companion guide, used in tandem with the v5010 ASC X12N Implementation Guides, are compliant with both ASC X12 syntax and those guides. This Companion Guide is intended to convey information that is within the framework of the ASC X12N Implementation Guides adopted for use under HIPAA. The Companion Guide is not intended to convey information that in any way exceeds the requirements or usages of data expressed in the Implementation Guides.

1 INTRODUCTION

Under the Administrative Simplification provisions of the Health Insurance Portability and Accountability Act (HIPAA) of 1996, the Secretary of the Department of Health and Human Services (HHS) is directed to adopt standards to support the electronic exchange of administrative and financial health care transactions. The purpose of the Administrative Simplification portion of HIPAA is enable health information to be exchanged electronically and to adopt standards for those transactions.

For questions relating to the Gold Coast Health Plan’s 270/271 Health Care Eligibility Request and Response Transaction or testing, please contact the 888-301-1228 or email your questions to providerRelations@goldchp.org.

Gold Coast Health Plan’s billing guidelines are not included in this document. Please refer to our website at https://www.goldcoasthealthplan.org/ for these guidelines, or contact Provider Relations at 888-301-1228 or email your questions to providerrelations@goldchp.org.

1.1 SCOPE

This section specifies the appropriate and recommended use of the Companion Guide.

This companion guide is intended for Gold Coast Health Plan’s Trading Partners interested in exchanging HIPAA compliant X12 transactions with Gold Coast Health Plan. It is intended to be used in conjunction with X12N Implementation Guides and is not intended to contradict or exceed X12 standards. It is intended to be used to clarify the CORE rules. It contains information about specific Gold Coast Health Plan requirements for processing following X12N Implementation Guides:

- 005010X279A1, Health Care Eligibility Benefit Inquiry and Response (270/271)

All instructions in this document are written using information known at the time of publication and are subject to change.

1.2 OVERVIEW

The Health Insurance Portability and Accountability Act–Administration Simplification (HIPAA-AS) requires Gold Coast Health Plan and all other covered entities to comply with the electronic data interchange standards for health care as established by the Secretary of Health and Human Services.

This guide is designed to help those responsible for testing and setting up electronic claim status transactions. Specifically, it documents and clarifies when situational data elements and segments must be used for reporting and identifies codes and data elements that do not apply to Gold Coast Health Plan. This guide supplements (but does not contradict) requirements in the ASC X12N 270/271 (version 005010X279A1) implementation. This information should be given to the provider’s business area to ensure that claims status responses are interpreted correctly.

1.3 REFERENCES

This section specifies additional documents useful for the read. For example, the X12N Implementation Guides adopted under HIPAA that this document is a companion to.

**2 GETTING STARTED**

**2.1 WORKING WITH GOLD COAST HEALTH PLAN**

For questions relating to the Gold Coast Health Plan's 270/271 Health Care Eligibility Status Request and Response Transaction, or testing, contact the Provider Relations department at 888-301-1228 or e-mail questions to providerrelations@goldchp.org.

**2.2 TRADING PARTNER REGISTRATION**

Providers may retrieve the enrollment form from the GCHP website at the address listed below. Providers may submit the completed form to GCHP via fax or email.

All forms and instructions will be located on this page: http://www.goldcoasthealthplan.org/providers/resources.aspx

**3 TESTING WITH THE PAYER**

After the submitter setup is complete, the submitter can send eligibility status transactions to the test environment. Gold Coast Health Plan notifies the provider after the successful completion of testing and prepares the provider for production status.

- During the testing process, Gold Coast Health Plan examines submitted test transactions for required elements, and also ensures that the submitter gets a response during the testing mode.
- When the submitter is ready to send ANSI 270/271 transactions to a production mailbox, they must notify Gold Coast Health Plan Provider Relations. Provider Relations then moves the submitter to the production environment.
- The submitter's mailbox name remains the same when moving from test to production. Changing passwords is optional upon submitter's request to the Provider Relations Team.

**4 CONNECTIVITY WITH THE PAYER/COMMUNICATIONS**

**4.1 PROCESS FLOWS**

**4.1.1 Real-time**

- The user application submits an SOAP request at https://or.edifecs.com/mt1sp800 and MIME request at https://or.edifecs.com/mt1mp800
- Eligibility status system authenticates the user.
- If the user is successfully authorized, the following files will be issued within 20 seconds:
  - TA1 (if problem with the ISA/IEA segments exist)
  - 999 Reject (if problem occurs within the subsequent loops and segments)
  - 271 Eligibility Response
4.1.2 Batch

- The user application submits an SOAP request at https://or.edifecs.com/mt1sp900 and MIME request at https://or.edifecs.com/mt1mp900
- Eligibility status system authenticates the user
- If the user is successfully authorized, one of the following will be generated back to the user:
  - TA1 available within one hour, if there is a problem with the ISA or IEA segments
  - 999 Reject available within one hour, if there is a problem with the segments occurring between the ISA and IEA.
  - 999 Acceptance response will be available within one hour.
  - The 271 transaction(s) will be available the following day (no later than 7:00a.m)

4.1.3 Structure Requirements

Real-time 270 requests are limited to one inquiry, per patient, per transaction. Batch 270 requests are limited to 99 inquiries per ST-SE transaction.

4.1.4 Response Times

A response (TA1, 999 reject or 271) to real-time inquiries will be provided within 20 seconds. A response to the batch inquiry will be provided by 7 a.m. (ET) the following day. Batch requests submitted after 9 p.m. (ET) will be available by 7 a.m. (ET) two days following submission.

4.2 RE-TRANSMISSION PROCEDURE

If the HTTP post reply message is not received within the 60-second response period, the user’s CORE compliant system should send a duplicate transaction no sooner than 90 seconds after the original attempt was sent.

If no response is received after the second attempt, the user’s CORE compliant system should submit no more than five duplicate transactions within the next 15 minutes. If the additional attempts result in the same timeout termination, the user’s CORE compliant system should notify the user to contact the health plan or information source directly to determine if system availability problems exist or if there are known Internet traffic constraints causing the delay.

4.3 COMMUNICATION PROTOCOL SPECIFICATIONS

The following is a list of technical standards and versions for the SOAP envelope and claim status payload:
- HTTP Version 1.1
- CSOAP Version 1.2
- SSL Version 3
- Health Care Claims Status Request and Response Version 005010X279A1
- CAQH SOAP (Gold Coast Health Plan supports the use of HTTP SOAP + WSDL envelope standards as identified in CAQH CORE Phase I/II Connectivity standards http://www.caqh.org/pdf/CLEAN5010/250-v5010.pdf )

The following is a list of technical standards and versions for the HTTP MIME multipart envelope and claim status payload:
- HTTP Version 1.1
- SSL Version 3.0
- MIME Version 1.0
- Health Care Claims Status Request and Response Version 005010X279A1
• CAQH MIME (Gold Coast Health Plan supports the use of HTTP MIME Multipart existing envelope standards and has implemented the HTTP MIME Multipart envelope standards as identified in CAQH CORE Phase I/II Connectivity standards.)

### 4.4 PASSWORDS

The Provider Relations is responsible for password assignment and resets. For any information or queries, please contact at 888-301-1228 or email us at ProviderRelations@goldchp.org

### 4.5 MAINTENANCE SCHEDULE

The systems used by the 270/271 transaction have a standard maintenance schedule of Sunday 10PM to 12AM PST. The systems are unavailable during this time. Email notifications will be sent notifying submitters of unscheduled system outages.

### 5 CONTACT INFORMATION

The following sections provide contact information for any questions regarding HIPAA, 270/271 Health Care Claim Status Request and Response Transactions, and documentation or testing.

#### 5.1 EDI CUSTOMER SERVICE

For 270/271 transaction EDI eligibility status request and response questions, contact Provider Relations at 888-301-1228 or email us at ProviderRelations@goldchp.org.

#### 5.2 EDI TECHNICAL ASSISTANCE

Contact Provider Relations at 888-301-1228 or email us at ProviderRelations@goldchp.org.

7 PAYER SPECIFIC BUSINESS RULES AND LIMITATIONS

Gold Coast Health Plan uses real time processing for its EDI transactions to provide immediate responses to its submitters. In real time, the submitter transmits a request transaction to Gold Coast Health Plan and then remains connected while Gold Coast Health Plan processes the transaction and responds to the submitter. Gold Coast Health Plan accepts the 270/271 transactions as a “read only” transaction and will not use any data coming in on the 270 transaction to update its internal systems. Additionally, where stated in the ASC X12N ANSI 270/271 Health Care Eligibility Inquiry and Response Transaction Set Implementation Guide, Gold Coast Health Plan will respond with its source data from internal systems, including but not limited to such data as Subscriber Name information, Member Id and DOB.

SUPPORTED FUNCTIONALITY

- Gold Coast Health Plan accepts the 270/271 transactions as a “read only” transaction and does not use any data coming in on the 270 transaction to update its internal systems.
- To provide immediate response to submitters, Gold Coast Health Plan uses real time processing for its EDI transactions.
SUBSCRIBER AND MEMBER SEARCHES

To uniquely identify a member, a 270 transaction must include the member’s Gold Coast Health Plan Identification Number, the information source’s Identification Number, plus the member’s last name, date of birth and service type code.

- For the best response time, Gold Coast Health Plan recommends that the 270 transaction set be programmed to a single record. This consists of a one-to-one ratio in a single loop structure: one information receiver, one provider, one subscriber and request service type code(s).
- If the 270 transaction is not rejected, Gold Coast Health Plan returns the 271 transaction with all of the Inquiry criteria information that was submitted in the 270 transaction.

8 ACKNOWLEDGEMENTS AND/OR REPORTS

8.1 999 – ACKNOWLEDGEMENT FOR HEALTH CARE INSURANCE

Gold Coast Health Plan supports the Acknowledgement for Health Care Insurance (999). 999s are sent for real-time submissions of 270 transactions when error or discrepancy found at GS or transaction level. For Batch 270 transactions a 999 is sent always.

8.2 TA1 - INTERCHANGE ACKNOWLEDGEMENT REQUEST

Gold Coast Health Plan supports the Interchange Acknowledgement Request (TA1) when any issues at ISA level.

8.3 REJECTION LOGIC/STATUS CODES

Gold Coast Health Plan developed its rejection logic using HIPAA standard codes available on the Washington Publishing Company's website (www.wpc-edi.com) to better communicate to providers the reason a transaction was rejected and what action to take to resolve the rejection.
9 TRADING PARTNER AGREEMENTS

This section contains general information concerning Trading Partner Agreements (TPA). An actual TPA may optionally be included in an appendix.

9.1 TRADING PARTNERS

An EDI Trading Partner is defined as any Gold Coast Health Plan customer (provider, billing service, software vendor, employer group, financial institution, etc.) that transmits to, or receives electronic data from Gold Coast Health Plan.

The Provider Services department at Gold Coast Health Plan registers new partners and agreement/setup forms to process electronic transactions.

10 TRANSACTION SPECIFIC INFORMATION

The following table specifies the segments and suggested use of them in the transmission:
