2. OVERVIEW

2.1. Gold Coast Health Plan

Gold Coast Health Plan is an independent public entity created by County Ordinance and authorized through Federal Legislation; however, Gold Coast Health Plan is not a county agency. The Ventura County Board of Supervisors approved implementation of a County Organized Health System (COHS) model, transitioning from fee-for-service Medi-Cal to managed care, on June 2, 2009. The purpose of Gold Coast Health Plan is to serve Medi-Cal beneficiaries, enhance the quality of healthcare, provide greater access, improve service and provide choice.

Gold Coast Health Plan proudly serves more than 202,000 Medi-Cal beneficiaries living in Ventura County, Calif. We are an independent public entity governed by the Ventura County Medi-Cal Managed Care Commission and are dedicated to serving our members. The commission is comprised of locally elected officials, Providers, hospitals, clinics, the county healthcare agency and consumer advocates. Our Member-first focus centers on the delivery of exceptional service to our beneficiaries by enhancing the quality of healthcare, providing greater access and improving member choice.

From its inception, Medi-Cal has experienced increasing program costs, primarily as a result of spiraling growth in the caseload, utilization of service, and hospital costs. A Medi-Cal Reform Plan was enacted by statute in October 1971 (Chapter 577, Statutes of 1971) with the objective of developing an equitable statewide eligibility system, a uniform schedule of benefits for eligible’s within a strong system of utilization and quality controls, and an improved system of health care delivery and health care financing for the program.

Modifications to the program are continually occurring because of federal and State legislation, departmental regulations, and other efforts to improve the program. Contractors should be aware that Contractor responsibility will include the planned and orderly implementation of the applicable provisions of all state and federal legislation and regulations whenever they may occur within the life of the contract.

2.2. Project Background

2.2.1. GCHP is establishing a preferred pool of translating and interpreting vendors. This preferred pool will deliver high quality services at fair market value with targeted experience in the health care industry.
